Exploited, Fuck The System

It doesn't really matter
What you've got to say
They never f**king listen
To you any way

(Chorus)
So f**k the system
You can bring it down
So f**k the system
We can bring it down

Future is chaos and anarchy
The misery continues
It's the governement way

(Chorus)
So f**k the system
You can bring it down
So f**k the system
Chaos will bring it down

Get up and stand up
And fight back now
They didn't want to listen
But they'll listen now

(Chorus)
So f**k the system
You can bring it down
So f**k the system
We can bring it down

Thousands of homeless
And more each day
The misery continues
It's the government way
F**k the government

(Chorus)
So f**k the system
You can bring it down
So f**k the system
Chaos will bring it down
