

Exploited, Let's Start A War (Said Maggie One Day)

let's start a war said maggie one day
with the unemployment masses
we'll just do away they won't mind,
like sheep they'll go they won't suss us,
they'll never know

chorus:

let's start a war said maggie one day
let's start a war said maggie one day
let's start a war said maggie one day

you fight for your country
you die for they gain death
and destruction all around
shops nad houses are razed
to the ground burnt our houses
empty shells here on earth
it's just a mortal hell

chorus

how they died,
no-one will ever know
they said they would
have us as deterrents
they would be used
except they brought
destruction to an earth
that grows no food now
we are gone for ever
no tombs can hold
your names

chorus
