Exploited, Now I'm Dead

Seen the add on my TV set
Join the army, be a man
Join the army, learn new skills
Learn to kill and maim your friends!

And now I'm dead
But nobody cares
It's part of the job

British soldier on tour of Ulster
Who's the enemy, who's the foe?
Sent to the Falklands
It's miles away
I didn't really want to go

And now I'm dead
But nobody cares
It's part of the job

On the news
In my living room
Soldier killed by IRA
It happens now so often now
That people just don't even care!

And now I'm dead
But nobody cares
It's part of the job!
