

Exploited, Serial Killer

This is a poser song

Your child is dead and gone now
You blame yourself your child is gone now
Murder aggression sexual perversion
You dont give a fuck about the childern that you fucked

Watch out serial killer going to get you
Watch out serial killer going to get you

I go home and what i did on the telly
Itmakes me cry just like a baby
This is not a sex act i can tell you
Child cries paedophile fuck you

Watch out serial killer going to get you
Watch out serial killer going to get you

Come take a step in the future baby
Come see what life's all about tonight
Are you ready for life's adventure
Never know what you'll find out tonight

Watch out serial killer going to get you
Watch out serial killer going to get you
