

Extreme, Other Side Of The Rainbow

So you're not gonna fall again
heart still recovering
Happy ever after ends
you're not gonna try and pretend
"It's better to have loved and lost
than never to have loved, loved at all"
Maybe, take a chance on me baby
you might think that I'm crazy
Follow me maybe we could find
the other side of the rainbow
Come with me don't just say no
no regret let your heart go
I believe maybe we could find
our faith in love again
Yeah you heard it all before
yeah you don't believe in love anymore, no
Oh your fairytale has left you
Yeah left you with no reason or rhyme
You want to leave it all behind
keeping it out of sight and out of mind
Maybe, take a chance on me baby
you might think that I'm crazy
Follow me maybe we could find
the other side of the rainbow
Come with me don't just say no
no regret let your heart go
I believe maybe we could find
our faith in love again
I've been there before
love was nevermore
ooh, you're not the only one
Wish upon a star
wake up where the clouds
are far behind you...
