

Extreme, Our Father

Oh Daddy please
Take me with you where you're going
Oh Daddy please
Come find the time, come watch us growing

Oh Daddy please, don't leave
There's so much that we want to know
Before you go

I'm in need of someone to tie my shoe
Or take hold of my hand when I become afraid
And whose footsteps will I follow into?
Daddy please, don't run away

Our Father
Far Father
Our Father
Far Father away

Oh Daddy please
I pray every night the doors will open
Oh Daddy please
This house is just a broken home left all alone

I'm in need of someone to tie my shoe "(oh)"
Or take hold of my hand when I become afraid "(ah)"
And whose footsteps will I follow into?
Daddy please, don't run away

Our Father
Far Father
Let me tell ya 'bout Our Father
Far Father away

Daddy don't
Daddy don't run away
Yeah

And whose footsteps will I follow into?
Daddy please, don't run away

Our Father
Far Father
Let's talk about Our Father
Far Father

You know I'm talking 'bout Our Father
Far Father away
Our father
