

Extreme, Politicalamity

Wars and rumors
Of wars, no one knows what for
Toys and soldiers
Deployed on some foreign shore
While lords and rulers
Destroy diplomatic rapport

Communists, dictatorships
Democracies, hypocrisies
Ask not what your country can do?
To a one world governmental zoo

Political, political
Politicalamity
"(It's anarchy)"
Political, political
Politicalamity

Rich and poor
Salute your country's colors
Less is more
When one oppresses the other
Pride and power
Decorated upon collars

Donkeys, bears and elephants
All paper-trained on parliament
I said, ask not what your country can do?
To a one world governmental zoo "(one world governmental zoo)"

Political, political
