

Eyes Of Eden, When Gods Fall

Endless hours
I spent kneeling down
To my own creation

Looking up to your sky
Embracing my
own imagination...

...imagination

Refrain:
When gods fall charmed by a human
Calling a name that never should be told
Trapped in a true heart opened by love
Caught by the spirit they self unfold

Heavens doors
Suddenly opened up
And set you free

Your divine step
Touched mortal ground
Inspiring eternal dreams...

...Your secret dreams

Refrain
