

# Eyes Of Eden, Winter Night

Pictures surround me  
Crystal dreams in ice cold night  
Come and cover  
Embrace me, shelter me  
Moonlight touches the twinkling white

In endless beauty

Sweet is the love of ice  
Coldness chills human minds  
I shiver in delight  
Lost in a winter night

Clear air sharps my mind  
Frozen lips kiss me alive  
Summer fell asleep  
Awakened autumns sight  
Guided winter back to life

In endless beauty

Sweet is the love of ice  
Coldness chills human minds  
I shiver in delight  
Lost in a winter night

In endless beauty

Sweet is the love of ice  
Coldness chills human minds  
I shiver in delight  
Lost in a winter night
