Eyes Set To Kill, Into The Night

Violent breathing keeps the oxygen kissing torn up lungs my heart's beating it wont keep me from saving everyone (yet i still have) messages to the ones i love violent breathing it wont keep me from saving everyone

so we sing into the night and break all the silence with one attempt to rise the broken from the dead avenge their souls and mend their souls we sing into the night

so we sing into the night and break all the silence with one attempt to rise the broken from the dead avenge their souls and mend their souls we sing into the night

when terror grows
like vines tightly gripping by the arm
thorns digging
draw the blood
releasing pain
ill sew your wounds over night
ill sing to you
ill risk my life for yours
ill sip your tears
in exchange for my blood
drink up
fear is gone
as light from the moon awaits
fear is gone
as light from the moon awaits
