

# Ezspecial, Special

My friends are amazing  
They always keep that smile for me  
And all those times  
That I need some support  
They just listen carefully

I feel Special  
Special  
I feel Special  
Special

I'm stuck in the traffic  
The cars move so slowly way back home  
Then I remind myself  
Of when I need some support  
My friends will always be around

I feel Special  
Special  
I feel Special  
Special

When we are alone  
It's so easy to fall down  
When we have those good friends around  
Our lives become more fun  
We must go on together forever  
We must go on together as one

I feel Special  
Special  
I feel Special  
Special

So Special...
