F.L.Y, Hello From Mars (Eurovision 2003)

Time, would pass me by if I I never asked you why Youre eyes where open wide That day you saw me cry I'm not that kind of girl Who only dreams of pearls Just give me wings of love And make it real 'Cause I'm not afraid Of a blade That we need to cross today But I'm scared To be shared By someone else 'Cause this is gonna be The day that we will meet When heaven comes so down to Earth To say hello from Mars My emotions take me high They seem to reach the sky I still believe we try To hit the ground or fly 'Cause I'm not afraid Of a blade That we need to cross today But I'm scared To be shared By someone else 'Cause this is gonna be The day that we will meet When heaven comes so down to Earth To say hello from Mars Life is a mistery Like a perfect harmony Noone knows that day when love Will come and set you free 'Cause this is gonna be The day that we will meet When heaven comes so down to Earth To say hello from Mars
