

# F4, I Loved You All The Way

All this time we've been together  
Everyday a new adventure  
Time's enough to last forever and a day  
Our love was sometimes all we had  
Through good times and through bad  
I loved you all the way. . .

All our days were'nt bright and sunny  
There were times we had no money  
You could always find some funny things to say  
I'm lookin' back on where we've been  
I'd do it all again  
I loved you all the way. . .

Refrain:  
I loved you all the way, hey  
Everynight, everynight, everyday. . .

Times I thought I could'nt take it  
Wondrin' if we'd ever make it  
You could hold me close and make it go away  
And though I've said it all before  
I never meant it more  
I love you all the way. . .

Coda:  
I loved you all the way. . .
