

F4, Meteor Rain (English)

The loving starry sky
Should make you feel touched
I'm here by your side
Decorating a piece of heaven for you
I wouldn't allow you to feel sad
I'll chase away your loneliness
The weight of your unfulfilled dreams
let me bear them all
Leading you by the hand
Doesn't matter how strong the wind becomes
For you have me now
You'll never lose your way again.
