

# Fabulous, We Be Like This

(feat. Danny Saber, Jadakiss)

[Intro: Fabolous]

Getting it on  
Brooklyn we back  
Ghetto Fab

[repeat 4X]

Like that I got on, I got on

[Chorus: repeat 2X]

From the rocks to the trees  
We be like this  
From the blocks to the P's  
Streets be like this  
From the cock to the squeeze  
Heat be like this  
Ghetto F-A-B  
Keep it like this

[Fabolous]

I'm an ordinary gent, in a strawberry Bent  
Air Force Ones, check out the Burberry print  
It's the kid, who do you fuck with  
Ya'll should stop starring, unless Gucci make bullet proof buckets  
Street family boys, kisses on they cheek  
And why the D.A. and see the whip misses in a week  
Ghetto gotta admire, man on it like this  
And Prada work, retirement plan on my wrist  
Niggas don't like that I got on  
It's easier to find Bin Ladden, then the nikes that I got on  
I used to love apartments, now I'm laughing in a mini mansion  
I feel like I'm in a glove compartment  
I'm far from jealous  
But you ain't smoking good if what you buy don't look like the ?  
I'm the reason your chillin'  
It's no problem ridin' up  
Puttin' a few of these in your melon  
Why I'm breezing and yelling, ghetto

[Chorus: repeat 2X]

[Jadakiss]

Ay yo, never get caught holding a gram  
Never take a bitch word over your man  
Stay close to him  
Never let em know where you live  
Never let get familiar with your dough or your kids  
Put the toast to em  
Always stay quiet and humble  
But don't be scared to take it to the knife or the gun in a rumble  
I could show you how to get your neck broke  
Stretch coke, the middle of the ocean on a mean duplex boat  
Look here, there is no competitor  
See now with the space ship doors, they open up regular  
Get it on with the hard plastic  
My sixteens had niggas feel like they trippin' off acid  
Trust me, I can't see a loss  
Know that if you wack me, you can't be a boss  
Ryde or die, cry or lie, get your hustle on  
Hold the block down, for life, truly yours

[Chorus: repeat 2X]

[Fabolous]  
Keep it like this  
Keep it like this  
We be like this  
Streets be like this  
Heat be like this  
Keep it like this
