

# Fabulous Disaster, Collide

I hope I never feel this way again  
I never wanted to say hello to you  
I was so happy just being by myself  
I see you, we collide, I see you we collide

I wake up, don't want to, you're not here  
You're not around  
I wake up, don't want to, you're not here  
Want to Collide

Walking down the street alone  
Just the other day  
I felt you near but your're so far away  
I had a feeling coming over me  
I realize that I'm alone  
I realize that I'm alone

I wake up, don't want to, you're not here  
You're not around  
I wake up, don't want to, you're not here  
Want to Collide  
I wake up, don't want to, you;re not here  
You're not around, you're not around....
