

Fabulous Disaster, Collide

I hope I never feel this way again
I never wanted to say hello to you
I was so happy just being by myself
I see you, we collide, I see you we collide

I wake up, don't want to, you're not here
You're not around
I wake up, don't want to, you're not here
Want to Collide

Walking down the street alone
Just the other day
I felt you near but you're so far away
I had a feeling coming over me
I realize that I'm alone
I realize that I'm alone

I wake up, don't want to, you're not here
You're not around
I wake up, don't want to, you're not here
Want to Collide
I wake up, don't want to, you're not here
You're not around, you're not around....
