

Face To Face, Don't Turn Away

God knows I've tried
I've waited in spite of myself
There's nothing to hide
I need you like no one else
I'm sick of trying to figure out where I went wrong
I can't believe these words you say
Don't you turn away from me
I can't say another word I haven't said before
Don't you turn away from me
Don't ask for my apologies I don't have anymore
God knows I'm tired
Of lies and denials from you
It's down to the wire
I've given myself and that's all I can do
I'm sick of trying to figure out where I went wrong
I can't believe these words you say
Don't you turn away from me
I can't say another word I haven't said before
Don't you turn away from me
Don't ask for my apologies
I haven't anymore
