

# Face To Face, Maybe Next Time

did you hear that?  
it sounds like I'm losing my faith  
did you feel that?  
it feels like I'm so far away

but if I knew what I know now  
this wouldn't be so wrong  
now I'm back to where I started from

and if I was sure then I'd be right  
but I guess I've lost this fight  
wait until the next time

I can feel it  
it feels like my luck's going to change  
I can see it  
it seems like this time it's ok

and if I was sure then I'd be right  
but I guess I've lost this fight  
wait until the next time  
I know I was close that time before  
there's still a need for something more  
wait until the next time
