## Face To Face, Maybe Next Time

did you hear that? it sounds like I'm losing my faith did you feel that? it feels like I'm so far away

but if I knew what I know now this wouldn't be so wrong now I'm back to where I started from

and if I was sure then I'd be right but I guess I've lost this fight wait until the next time

I can feel it it feels like my luck's going to change I can see it it seems like this time it's ok

and if I was sure then I'd be right but I guess I've lost this fight wait until the next time I know I was close that time before there's still a need for something more wait until the next time
