

Face To Face, Not Enough

Talk talk talk don't talk to me
You've got something I just don't need
Wait wait wait don't wait for me
I've been waiting for you to leave
Want to try and try
Try and make it right
How long it takes you just don't know
And another day
And there's nothing changed
How long it takes you just don't know

Talk talk talk don't talk to me
You've got something I just don't need
Wait wait wait don't wait for me
I've been waiting for you to leave

Because we are what we are
And sometimes it's not enough

Try and try, try to make it right
But I just don't know
Another day and there's nothing changed
And I just don't know

Because we are what we are
And sometimes it's not enough
