

Face To Face, Walk Away

don't want to hear what you said
don't want to kick in your head
don't want to live my life that way
don't want to give in but I don't want to be victimized
don't want to know anything
don't want to live my life that way

walk away
try to see things in a different way

don't want to tell you your place
don't want to get in your face
don't want to live my life that way
don't want to know what you think
don't want to know anything
don't want to live my life that way

walk away
try to see things in a different way
