

Face Tomorrow, Sunny Ride

The engine started.
Nerves and frights.
It feels good.

Sunny side of my life.

Don't try to stop it.
It's boiling up inside.

Sunny side of my life.

No one can take it away.

It's like a spirit inside, which I can not hide, so clever.
The minute it starts, you hope it goes on forever.
This is how I like to live my life.
Facing my fear when pressure is near.
They never stopped me from reaching all of my goals that matter.
Don't put pressure on the question why.

Sunny side, sunny side.

It feels good.
Emotion flows.
It fills me up inside I feel it.
So real.

The engine started.
Nerves and frights.
It feels good.

Sunny side of my life.

Don't try to stop it.
It's boiling up inside.

Sunny side of my life.

No one can take it away.

It feels good.
All my emotions flow right through.
And it fills me up inside I feel it's building up again.

Sunny side sunny side

It feels good.
Emotion flows.
It fills me up inside I feel it.
So real.

This is my sunny side of my life.
