

Faction, It Makes Me Sick

Don't try to push your ideas on me, I can think for myself

Don't care about what you do to me, don't care about society

Who do you think could push the button, not D.C. and not the reds

??

It's in my mind, it's in my head, it's in my brain, it's in my bed, It's on the streets, it's in the news, it's in the

Everywhere I look and everything I see reminds me of the things you try to do to me

?

Situation's way too tense

??.
