

# Faction, Skate And Destroy

Forget the light, skate and destroy  
Pass the jogger, skate and destroy  
Snap it back, skate and destroy  
Kick that bike, skate and destroy  
It's not a cause or political belief, it's something in my thinking  
If you agree it's cool by me, at least I'm not a robot  
I'm not afraid of things I read, I won't divide my friends up  
Dictatorship of people's minds is not what I will strive for  
The cops are coming after me, their sons are BMXers  
They always try to stop me but urethane is faster than boots  
You may be in a parking lot throwing up your contents  
So what who cares I know I don't  
Be a hood, don't be good.
