

# Fady Maalouf, Good Thing

Were sitting up on our cloud  
Looking down to the ground  
Watching all the People running around  
I dont wanna come back down  
Up here I found my peace of mind  
I wish that we could stay here until the end of time

I never thought that I would get hold of  
A Girl like you to be my one only love  
But you came and made me feel like I can fly

Baby we have got this good thing  
Its waht ive been searching for all my life  
Baby we have got this good thing  
Girl Ive never felt so alive  
Youre my Youre my Youre my good thing

I always found love so strange  
But its funny how your life can change  
I was lost but now Im back in the game  
To many things I kept inside  
No longer wanna run and hide  
Im leaving all my worries and troubles behind

I never thought that I would get hold of  
A Girl like you to be my one only love  
But you came and made me feel like I can fly

Baby we have got this good thing  
Its what ive been searching for all my life  
Baby we have got this good thing  
Girl Ive never felt so alive  
Youre my Youre my Youre my good thing

Ive been hiding for a long time  
Was afraid to get hurt and fall down  
Its over now I dont know how but you got me  
Falling for your love so divine  
Girl your one of a kind  
Now Im all about you you you

Baby we have got this good thing...2x
