

Fady Maalouf, Love Of My Life

My mother said I began to sing
Before I could talk before I could walk

My father said music fills your heart
Always be there what a great thing to start

Music the first my one and all
The only one to catch my fall
The love of my life
Its the love of my life

Just sing the words and start to dance
My spirit will take another chance
Ill do anything that I have to do
For the love of my life
Yes its true

Mother said Ill take care of you
Whatever you do Ill be there with you

Father said make your dream come true
Like a symphony it is the love of your life

Music the first my one and all
The only one to catch my fall
The love of my life
Its the love of my life

Just sing the words and start to dance
My spirit will take another chance
Ill do anything that I have to do
For the love of my life

I would live and I would die for it
I steal the sun from the sky for it
Words can not say what music can do
Do you feel it too??

Music the first my one and all
The only one to catch my fall
The love of my life
It's the love of my life

Just sing the words and start to dance
My spirit will take another chance
Ill do anything that I have to do
For the love of my life
Yes it's true
