

Fady Maalouf, Will You Still Love Me Tomorrow

Will you still love me tomorrow

Will, will you still be taking care of me now
Will, will you still love me the rest of your life

You have so much love to give
That without you I can't live
Oh until the end of time
My first and only love
I do sincerely ask one thing to you
Can you tell me one more time

Will, will you still love me tomorrow
Will, will you still stand always here by my side
And take away all my sorrow
Will, will you still love me tomorrow

Will, will you still stand always here by my side
Will you still love me tomorrow
Will you still love me tomorrow

Deep, deep inside
I know that you're made for me
Now, it looks right
But there is one thing I just wanna know

You have so much love to give
That without you I can't live
Oh until the end of time
My first and only love
I do sincerely ask one thing to you
Can you tell me one more time

Will, will you still love me tomorrow
Will, will you still stand always here by my side
And take away all my sorrow

There's so much I can give to you
Uhh I just wanna live with you
Will, will you still stand always here by my side
Will you still love me tomorrow

There's so much I can give to you
Uhh I just wanna live with you
Will, will you still stand always here by my side
Will you still love me tomorrow
Love me tomorrow
