

Fair Haven, Shadow of a Dream

What sustains us from the inside
when the outside starts to melt
Can we keep an open heart
when we find ourselves in hell
How do we create the life
our soul was born to birth
Do we know the secret of
eternal life on earth
Are we closed for fear
of enduring further pain
Do we live in a shadow
A shadow of a dream
In a mirror, in a dream
as the sun drinks the shadows
We shall meet again
in a place where there is no darkness
Imagine all the love shown
Imagine all the passion never lived
Imagine all the truth never felt
All the dream dreamt
So we find ourselves
where nothing's as it seems
We walk along in a shadow
a shadow of a dream
