

Fair Haven, Victim or Master

Look you in the eye
meet me behind the role
call you by true name
Do you see you
Do you want to stand fall?
Do you want to stand free?
only you know
Do you know who you are? Only you know
do you know what you have? only you know
Every choice that you make changes your world
Victim or master, MASTER
Is your truth T.V.?
Is your truth in the papers?
Can you separate these stories from your own?
Can you up your story? And know you're not guilty
To time is wasted
No step is lost
