

# Fair Warning, Eyes Of Love

Tired of waiting - of waisting time  
You wipe the sorrow out of your eyes  
The spell is gone -  
That led your life astray

The distant mountains -  
You see them shine  
Driving rainbows into the sky  
And now you feel -  
You've cast your chains away

Just don't look back -  
To what went wrong  
It's just the past - and now it's gone  
Gone, babe -

Look inside these eyes of love  
See your dreams and don't give up  
Tonight I'm yours -  
Tomorrow I'm on my way

I ride the rainbows - touch the sky  
Know all the secrets you must find  
And deep inside -  
You know I'll guide your way

Just don't look back -  
To what went wrong  
It's just the past - and now it's gone  
It's gone, man -

Look inside these eyes of love  
See your dreams and don't give up  
Tonight I'm yours -  
Tomorrow I'm on my way

Look inside these eyes of love  
See your dreams and don't give up  
Trust your heart -  
Don't waste this life away

Reach out to the open sky  
Spread your wings and learn to fly  
Tonight I'm yours -  
Tomorrow you're on your way...
