

Fair Weather Friends, Cardiac Stuff

Spell was spoken

you are just a little surprised by events flow
we accelerate, everything is changing in a blink of an eye
Microcosm in kaleidoscope, your skin resists the fire
Breath is so light and simple, senses got messed up

you are just a little in love
I really do think
you are just a little in love
your heart keeps burning

Surprised by, surprised by events flow

You've got the beat
you 've got the source
and the sound is still coming
up to the speed of universe
you are getting better and better
Patterns are blurred but you see clearer than ever
A piece of your heart has fallen into new rhythm

you are just a little in love
I really do think
you are just a little in love
your heart keeps burning

Oficjalny tekst piosenki, pozdrawiam :)
