

# Fairport Convention, If It Feels Good You Know It

O here we are just you and me  
The folks have gone to bed  
Cat's put out, the fire's stoked up  
And the fish have all been fed  
There's no one to disturb us  
So put down your coffee mug  
Let's get to work, come over here  
And join me on the rug

And we can do that thing, do that thing, do it all night long  
If you feel good, you know it can't be wrong

O George you are demanding  
And you always get your way  
But I really don't feel up to it  
I've had a lousy day  
The office was exhausting  
My boss is such a creep  
You know I'd love to, really  
But now I need some sleep

So we can do that thing, do that thing, do it all night long  
If you feel good, you know it can't be wrong

O won't you come on Ethel  
Where's your sense  
Of the gay, abandoned fun  
Don't get uptight  
The time is right  
And the evening's just begun  
Well you know the fun that we had last night  
You said it was a groove  
Let's get to work down here right now  
Cause I'm feeling in the mood

To just do that thing, do that thing, do it all night long  
If you feel good, you know it can't be wrong

O your fingers may be aching  
My bones feel that way too  
Control yourself a little  
And slow down you wild one you  
My father wouldn't like me to  
So I'm showing you the door  
I'll see you George tomorrow  
And we'll limbo dance some more

Do that thing, do that thing, do it all night long  
If you feel good, you know it can't be wrong  
If you feel good, you know it can't be wrong
