

Faith Evans, Catching Feelings

Oh oh (oh oh)
[REPEAT]

(take your time)

[VERSE1:]

If you just..relax..and take your time
You'll see in me you'll find peace of mind
Something about the way that you touch me it makes me glow
in me you can confide
but the love it takes some time

[CHORUS: (repeat)]

Feels like you can be the one that's catchin' feelings
i know you can't help it but just slow down
boy you know you alright with me (you know that you're alright)

[VERSE2:]

if you weren't so young
maybe we could be serious oh
infatuations killing me so mysterious
when there's no other you'll be my lover if you play it cool (baby just take it slow)
I can't fall in love with you (in love with you) so maybe we can rendezvous (rendezvous)

[CHORUS: (REPEAT)]

Feels like you can be the one that's catchin' feelings
i know you can't help it but just slow down
boy you know you alright with me (you know that you're alright)

[BRIDGE:]

I knew you were so young
you were just a love thing and I
I just let you get a taste of my love
I let my guard down
it was only supposed to be one time oh but now we find our selves
doing it over and over and over
cause what we have is only physical (only physical)
I gotta give you time to let you grow

[CHORUS:]

it feels good but you gotta slow down
catchin feelings
cause i don't wanna turn you out catching feelings
(baby just take it slow)
take it slow [REPEAT 2x]
all you gotta do
take it slow [REPEAT 2x]
just take it slow

[REPEAT 2x]

whoa ohh whao
whoa ohh whao
