

# Faith Evans, Don't Cry

Take just one look around me  
Tell me what you see  
Your reflection and the brokenhearted memory  
I tried so hard to do the best I could  
You lied and now we got to get this understood

Don't cry, don't call me  
I don't want you around me  
Who are you to judge me  
I'm only what you made me

You should have took advantage  
Of every waking moment  
But you thought that you had time to wase  
And you were so dead wrong  
I tried so hard to do the best I could  
You lied and now we go to get this understood

Don't cry, don't call me  
I don't want you around me  
Who are you to judge me  
I'm only what you made me

I don't wanna see your tears  
I don't wanna hear your voice  
Don't you know you made the choice  
Boy you did me so wrong

Don't cry, don't call me  
I don't want you around me  
Who are you to judge me  
I'm only what you made me

Don't cry, don't call me  
I don't want you around me  
Who are you to judge me  
I'm only what you made me

Take just one look around me  
Tell me what you see  
Your reflection and a brokenhearted memory

Don't cry, don't call me  
I don't want you around me  
Who are you to judge me  
I'm only what you made me
