

# Faith No More, Get Out

What if there's no more fun to have?  
And all I've got is what I had  
What if I have forgotten how?  
Cut my losses and get out now

Get out right now

There's something stronger than me  
There's something I don't want to see  
A new thing growing in me

It is the hardest thing to do  
To watch it grow on top of you  
And see you're just like everyone  
No fun

There's something stronger than me  
There's something I don't want to see  
A new thing growing in me  
There's something I don't want to see

I don't speak that language anymore  
My blood is not that color anymore  
My blood don't shine the same way anymore  
I cannot deny it anymore

There's something stronger than me  
There's something I don't want to see  
Got a new thing growing in me  
There's something I don't want to see  
There's something stronger than me  
There's something I don't want to see  
A new thing growing in me...
