

# Faith No More, Light Up & Let Go

The way you're holding me  
I'm gonna blow up in your face  
You know the way  
You're gonna light up and let go  
You better let go, let go  
You better let go  
You wanted flames  
But now your tears won't put out the blaze  
Before you run away  
Know that I cannot let go  
You better let go, let go

You better let go  
You stood a watched me behind [? ]  
Remember close you eyes [? ]  
Remember life is a lie [? ]  
You let me cold and blind [? ]  
The way you're holding me  
I'm gonna blow up in your face  
You know the way  
You're gonna light up and let go  
You better let go, and go  
You better let go, let go
