

Faithless, Mushrooms (Salt City Orchestra Out There Mix)

I Was with my girlfriend
This is Florida
She took me to this place
It had all kind of things growing
She gave me something
It was a mushroom
She said "eat it", she said.
A mushroom, what is that?
She said "eat it".
I don't think she's
She's kind of a wild girl
I don't think she was that wild
So I, I ate the mushroom
And I said "It doesn't taste like much";
She said "Wait a minute";
So I waited a minute
I waited a few minutes

And the next thing I know, I was walking on clouds
There were beautiful clouds
And my girlfriend was talking to me
While I was walking on the clouds
And everything felt beautiful
I almost felt like I didn't have any feet,
No floor under me
It was beautiful
We looked in each other eyes.
On top of these clouds
And we were talking with each other
With our mouths wide open
And all of a sudden
She let me go
But I didn't fall,
I floated, but I was far away from her.
Until the next thing I know she wasn't there,
Knows by myself.
And I was on grass again
- Begin of Track 6 -
Very soft grass
I walked to the grass (4x)
