

# Faithless, Take The Long Way Home (End Of The Road Mix)

The long way home....  
Now I'm in the flow (11x)  
The long way home.... (4x)

I've been in places by chance, never intended to go.  
And so ended my youth, I once depended on proof,  
now I'm in the flow.  
There are things I know beyond knowing.  
Seems growing.  
I lift ya of the earth, mundane and glum, out the  
solar system, way past the sun. Till my  
kingdom come.

I guided sleeping rough on the streets in the rain.  
I guided learning to share my people's pain.  
I guided making flowers of broken hearts of stone.  
I guided 'cause I always took the long way home...
