

Faker, Bodies

I slept with your best friend
And I think I'll go again
When I'm distracted, I'm so distracted
D'ya think this spells the end?
Of bodies on..

When I'm distracted, I'm so distracted
When I'm distracted, I'm so distracted

I slept with your best friend
And you're off the rails again
It's over-rated, and I'm still frustrated
You think this spells the end
Of bodies on..

When I'm distracted
Turned our bodies on a little for me
I'm so distracted
Turned our bodies on a little for you
When I'm distracted
Turned our bodies on a little for me and you
I'm so distracted
I'm so distracted, on..

I slept with your best friend
And here we go again
It's over-rated, and I'm still frustrated
D'you think this spells the end of bodies

Turned our bodies on
A little for me, a little for you
Turned our bodies on
A little for me, a little for you
Turned our bodies on
A little for me, a little for me and you

I'm so distracted
I'm so distracted
On and on and on
I'm still distracted
On and on and on
I'm so distracted
On and on and on
I'm still distracted
I'm so distracted
I'm so distracted, on
