

Faker, Seizures

I made my home in Georgia,
after my first relapse.
Your broken down home,
come-down and I decay,
no matter what I've had.

'Cause I've had seizures by the sea-side honey,
and I'm back because I'm coming off the bat.
Your descriptors are not prescription honey,
you look like you're affected
you're not so affected.
Yeah, you look like you're affected
you're not so affected.
I've had...

I made my name in California,
after the first act.
If I was too prolific,
then honey, you better, you better watch your back.
So when it's time to come down to where you lay your mat,
my home is your home honey, not matter what I've had.
Oh what I've had.

'Cause I've had seizures by the sea-side honey,
and I'm back because I'm coming off the bat.
Your descriptors are not prescription honey,
you look like you're affected
you're not so affected.
Yeah, you look like you're affected
but you're not so affected.
I've had...

So what's gone on between us?
You said you saw your dad.
If there are no solutions,
then honey, guess I, guess I made you mad,
and if it's time to come down from where ever you're at,
my home is your home, no matter what you've had,
or what I've had.

Coz' I've had seizures by the sea-side honey,
and I'm back because I'm coming off the bat.
And your descriptors are not prescription honey,
Yeah, you look like you're affected
you're not so affected.
Yeah, you look like you're affected
but you're not so affected.

I've had seizures by the sea-side honey,
and I'm back because I'm coming off the bat.
And your descriptors are not prescription honey,
yeah, you look like you're affected
you're not so affected.
Yeah, you look like you're affected
but you're not so affected.

Oh, you look like you're affected
you're not so affected.

Yeah, you look like you're affected
but you're not so affected.
I've had...
