

Fakie, Missing Faces

Every night i look around,
just to see where I am and where you are.
You are so lonely and desperate.
If I could only just touch your face.

Every night I dream with you,
just talking in the park or in my room.
And I can see your eyes me
and i know that you feel the same about me

You can take my flowers, but aim your ship,
just dont bother me with my dreams
Every night I look around just to see where I am,
and where you are. You are so lonely and desperate
if I could only just touch your face

You can take my flowers but aim your ship
just dont bother me with my dreams
You cant take my flowers but aim your ship
just dont bother me with my dreams

Wasting time for nothing wasting time for nothing.
