

Falconer, Emotional Skies

I will not scream out in anger
Won't play this game forever
Make up your mind or I will take control
Why can't we end this nightmare
If that's your way take your share
Leave this now or I will lose my mind

I will not scream in the night
Come join in and stand side by side

Come take my hand, let us fly away
Cross emotional skies
(The dreams will come alive)
Follow me up through the clouds of grey
And into another day

All people try to tell me:
"That's not the way it should be
It's just the poison, feeding on your brain."
But in the lonesome night
They don't know the fight
The battle that is raging inside my head

You brought down the moon
So let your eyes light up the night
Save me from darkness
