

Fall Out Boy, Hold Me Like A Grudge

When you ask how I've been
I know you mean well
I know you mean well
Who am I dialing tonight?
That's a bummer
Thaw out my freezer burn feelings
For twenty summers

I'm just a cherub riding comets through the night sky
Screaming at the stars like night lights
And I love my life
I love my life
Running middle finger through the red lights
And I guess I'm getting older cause I'm less pissed
When I can't get onto the guest list
To the end of the world
Fever dream tangerine sweat

When I get down
Silent killers are these years
Coming like waves
(You put the "Fun," into dysfunction)

Hold me like a grudge
The world is always spinning and I can't keep up
Faster
And faster
Can't do it on my own
Part time soulmate
Full time problem
So hold me like a grudge

Hold me like a grudge

I guess somehow we made it back
With a few dreams of ours
Still in tact
I am a diamond on the inside
Just add the pressure
Know it's inside me
But I got no map
To my own treasure

I'm just a cherub riding comets through the night sky
Screaming at the stars like night lights
And I love my life
I love my life
Running middle finger through the red lights
And I guess I'm getting bolder cause I'm less pissed
We didn't make to your year end best list
Not the end of the world
The end of the world
Fever dream tangerine sweat

I thought I knew better
I thought it would get better
I figured somehow by now
I would have got it together
And if you put your put your heart in it heart in it
Then we'll do more than just
Get by together
Call you up and demand you have no fun without me
I'm like a storm on the horizon
