

# Falling Cycle, Mare Tenebrarum (Sea Of Shadows)

You left us here to watch  
The celebration of a lonely heart  
I still remember that day you left  
So vivid in my mind  
And now he sleeps in a lonely room  
Emotions running in the night  
Only memories of the past  
It's all we have  
There's nothing left for me  
There's nothing left for me to hold  
A distant memory  
To have it back  
When you were here  
There's nothing left  
There's nothing left for me to call my own  
A distant memory  
Now only time  
Now only time can make it worse  
Never be the same  
And now he sleeps in a lonely room  
Emotions running in the night  
Only memories of the past  
It's all we have
