

Falling In Reverse, All My Life (feat. Jelly Roll)

Yeah, I've been high and low,
I've been sober, I've been faded
Searching for my love in all the wrong places
Word up on the streets is I got a bad reputation
Yeah, I may have drew blood, but that was true love

I get a stroke of bad luck everywhere I look
Every time I go right everything goes wrong
And I self-destruct when I'm close to love
So someone save my soul
Because
All my life I've fucked up and I can't deny
I'm doing my best to get it together (woohoo)
If I told you once, I've told you a million times
I just can't live like this forever (woohoo)

Yeah, I've been up and down,
I've been through hell and back
I've had my share of drama, baby, please cut me some slack
I know you wanna get through to me, but I am my worst enemy
Yeah, I may have drew blood, but that was true love

I get a stroke of bad luck everywhere I look
Every time I go right, everything goes wrong
And I self-destruct when I'm close to love
Better buckle down, giddy up, here we go
Because
All my life I've
Fucked up and I can't deny
I'm doing my best to get it together (woohoo)
If i told you once, I've told you a million times
I just can't live like this forever (woohoo)
Forever (woohoo)

Go!
Giddy Up
Yee-Haw
