Falling Up, A Guide To Marine Life

Float by open windows
What a shipwreck
What a shipwreck
Circles running through my veins
With the vates set
With the vates set

See the lines, see the lines
I start feeling
When I'm lost, when I'm lost
There's no meaning
Call it this, call it this
Spinning sideways and never stops

Lines in the sky
Calling me out, calling me out
Constant collide
Calling me out, calling me out

Float by open windows
What a shipwreck, what a shipwreck
Glass flies all around me
Now my veins let, now my veins let

Lines in the sky
Calling me out, calling me out
Constant collide
Calling me out, calling me out

Call to the trees
"There are ways no one sees"

I never hear it the same way twice
Because it's in the way they move, you see
The trees, they want us to hear them
