

# Falling Up, Flights

They search, they light  
This place, a face of the fearless  
To wait the night  
It's calm but you're starting to hear this  
It moves so fast, stops hearts but holding on faster  
Come back, like that, and you know that

You will find  
That I'm everywhere you go  
And I'm all the places you will not be  
You will find  
That I'm everywhere you go  
And I'm all the things that you want to be

It leaves this light  
This sparkle's broken inside you  
I swear it hides  
In silence moving its way through  
The race we hear  
The fall of the wind and the whispers  
The take so clear and you know that

You will find  
That I'm everywhere you go  
And I'm all the places you will not be  
You will find  
That I'm everywhere you go  
And I'm all the things that you want to be

Constantly moving your heart is just wasting away  
Endlessly waiting this life is just slipping away

[2x] You will find  
That I'm everywhere you go  
And I'm all the places you will not be  
You will find  
That I'm everywhere you go  
And I'm all the things that you want to be
