

Fallon & Felisha, Infected

[Verse 1:]

In and out of, relationships,
Finding someone, to share, life with,
I'm unwilling, and I won't carry the load,
Fairytale, and the fantasies,
There is no prince, coming to save me,
When the book closes, I still end up alone,
Until you came along

[Chorus:]

I never wanted to fall in love,
Just for my own protection, (protection)
I wouldn't let my heart accept it, (accept it)
But when he touched me, I got infected,
(infected, infected)
I made a promise to never fall,
And so far, I thought I kept it, (kept it)
But my heart won't let me reject it, (reject it)
Cause when he kissed me,
I got infected, (infected)
I'm infected with your love

[Verse 2:]

Now I'm right here, watching you sleep,
Never thought that this would be me,
My hearts been invaded,
And now I'm in your control,
And when you hold tight,
It just feels so right,
And I get butterflies,
When I meet your eyes,
Tell me how did you get by,
When I let no one inside,
And it caught me by surprise,
When you came and infected me

[Chorus:]

I never wanted to fall in love,
Just for my own protection, (protection)
I wouldn't let my heart accept it, (accept it)
But when he touched me, I got infected,
(infected, infected)
I made a promise to never fall,
And so far, I thought I kept it, (kept it)
But my heart won't let me reject it, (reject it)
Cause when he kissed me,
I got infected, (infected)
I'm infected with your love

[Verse 3:]

The symptoms are,
Your body starts to weaken,
The side effects are,
You may fall way too deep in,
Then you'll deny that,
What your feelin' is that feelin',
You'll try to fight it,
But your gonna have to give in,
Whatever you had, (had)
You gave it to me, (me)
Was immune to love, (but)
You infected me, (me)
Like the one's who believe,
Now I should be quarantined,
I was fine bein' blind,
But you made me see,

[Chorus: {Adlibs}]

I never wanted to fall in love,

Just for my own protection, (protection)
{just for my own protection}
I wouldn't let my heart accept it, (accept it)
{I wouldn't let my heart accept it}
But when he touched me, I got infected,
{whooo-oooh ooh}
(infected, infected)
I made a promise to never fall,
{I made a promise to never fall in love ahh-oooh-haa}
And so far, I thought I kept it, (kept it)
But my heart won't let me reject it, (reject it)
{it won't let me, it won't let me, ahh}
Cause when he kissed me,
I got infected, (infected)
I'm infected with your love
[Outro:]
I'm infected by, I'm infected by,
I'm infected by, I'm infected by,
I'm infected by, I'm infected by,
Love...
