

Fame Factory, Better To Lose Then To Fall - Mar

"We used to share the same ambitions
We stood together trough it all
No one had to run
No one had to crawl
Together we would concurred it all

But when you had another vision
You thought that you could learn to fly
This is how it goes
This is how it feels
This is how the story will ends

It's Better to lose then to fall
It's better then nothing at all
So take what you got and run from it all
It's better to lose then to fall

When you look into that mirror
Well empty eyes is all you see
This is how it goes
This is how it feels
This is how the story will ends

It's Better to lose then to fall
It's better then nothing at all
So take what you got and run from it all
'Cause it's better to lose then to fall..

When you get there
And you don't know where you are
I will be where you will be
'hh
Well I will show you where the staaar
It is better to lose
Then nothing at all

Better to lose then to fall
It's better then nothing at all
So take what you got and run from it all
'Cause It's better to lose then to fall
It's better to lose, It's better to loose, Better to lose then to fall.."
